

## **GUAM WATERWORKS AUTHORITY**

Gloria B. Nelson Public Service Building  
688 Route 15, Mangilao GU 96913

### **Request for Interest: RFI 2017 For: EQUIPMENT LEASE SERVICES**

The Guam Waterworks Authority (GWA) is in the process of establishing a list of qualified equipment rental companies interested in providing GWA with Equipment Lease Services on an annual or multi-year contract basis. GWA must maintain an operating fleet of equipment to support its water and wastewater operations. It is anticipated that the proposed Equipment Lease Services agreement will provide for annual base rental of a fixed number of equipment of each type needed (i.e. Backhoe, Crane, Dump Truck, Tractor Truck, lowboy trailer, etc.) for normal operations, and periodic (e.g., daily or weekly) rental of additional equipment on an as needed basis dependent upon critical or emergency operational issues. A list of equipment required by GWA can be provided to interested parties.

GWA intends to hold discussions with all interested parties prior to issuance of a formal procurement to determine and address their concerns regarding the feasibility and successful implementation of the proposed Equipment Lease Services contract(s).

All interested contractors are encouraged to submit a Letter of Interest to Guam Waterworks Authority, to include a copy of interested party's business license, company address, point of contact, phone numbers and e-mail address no later than December 15, 2016.

Please submit your Letter of Interest to:

Miguel C. Bordallo, P.E.  
General Manager
