Request For Proposals: RFP-04-ENG-2017
Construction Management Services for the Asan-Adelup-Hagatna, Route 1 Sewerline Rehabilitation and Replacement
GWA Project No. S15-002-EPA

Request For Information No.: 01

Date: April 10, 2017

Below are responses to the request for information received from potential offerors on March 31, 2017. Except as provided herein, all terms and conditions of the document referenced in solicitation number above, as heretofore explained, remains unchanged and in full force and effect. To the extent this answer amends the RFP, please treat it as such.

Question No. 1.

The RFP states...

Proposals will not be considered if the Proposer or Proposer's sub-consultant(s) were involved in the preparation of the design for any of the projects for which this solicitation is being issued.

Does this requirement apply to a sub-consultant which conducted soil testing services only during the design portion of the project?

GWA Answer to Question No. 1

"The quality assurance testing stated in the RFP Scope of Work, Section E. Inspections and Tests, Subsection 3. Testing, Paragraph b., was intended to be required on an as-needed basis and to be used if there is any question about the testing completed by the contractor. The general contractor is responsible for all material testing. CM is required to witness the testing performed by the general contractor. The firm which provided soil testing services during design shall not be precluded from providing quality assurance testing for CM on an as-needed basis during construction."
