<b>Questions from June 01, 2017</b>		
	<p>In finalizing our bid response, we noticed that there is no mention of security requirements for the hard drive.</p> <p>The type of device requested in this bid typically has a hard drive. Government of Guam Law (Electronic Data Protection Act of 2012) speaks to the requirement of having the ability to sanitize storage media in digital copiers. Given the law, does GWA require that the described multifunction devices have the ability to erase and secure hard drives (i.e. Image Erase &amp; Encryption feature)?</p>	<p>It is expected that any of the systems the bidder is intending to supply that meets GWA requirements must also comply with US and Guam laws.</p>

Bidders are also notified to visit GWA website: [www.guamwaterworks.org](http://www.guamwaterworks.org) to ensure that addenda to the bid, answers to questions, and reminders are communicated to all bidders throughout the solicitation process.
