

GUAM WATERWORKS AUTHORITY

Gloria B. Nelson Public Service Building, 688 Route 15, Mangilao, Guam 96913

Request for Proposal: RFP-03-ENG-2018
Design Services for Pressure Zone Realignment and Tank
Repair/Replacement
Project No. W18-001-BND

Response to RFI No.: 01

Date: February 7, 2018

Below are the responses to the request for information received from potential proposers. Except as provided herein, all terms and conditions of the document referenced in solicitation number above, as heretofore explained, remains unchanged and in full force and effect. To the extent this answer amends the RFP, please treat it as such.

Question No. 1

“Does the Scope for RFP-03-ENG-2018 for Design Services for the project Pressure Zone Realignment and Tank Repair/Replacement include inspection and assessment of any of the existing steel tanks.”

GWA Answer to Question No. 1

No. Inspection and **assessment** of the existing steel tank structures are not required.

Question No. 2

“Additionally, will hazardous materials testing be needed for lead-based paint and/or oil-sand.”

GWA Answer to Question No. 2

Under the base scope of work, hazardous materials **testing** is not needed for lead-based paint and/or oil-sand. GWA has an existing contract with an A/E firm to conduct these tests; **however**, if **unexpected** hazardous materials are **discovered** during the site evaluation, there may be a need to include the additional testing under a scope change in this **project**.
