### GWA IFB No. 2020-15 relative to GRANULAR ACTIVATED CARBON

#### Response to Inquiries No. 2

This Addendum and Response to Request for Information (RFI) is issued to modify the previously issued bid documents and/or given for informational purposes and to the extent the responses below modify the bid documents, please treat them as an amendment to the Bid. The following responses are in response to RFIs received from potential bidders on August 07, 2020

REFERENCE:	QUESTION/INQUIRY AS SUBMITTED:	GWA RESPONSE:
<b>Questions from August 07, 2020</b>		
1.	We would like to request a 2-week extension for the bid opening of GWA IFB No. 2020-15 for Granular Activated Carbon. This is due to the time needed to communicate, review/clarify the specifications, obtain required supporting documents and obtain pricing from the vendor. We also have been experiencing delay in vendor communication due to the ongoing pandemic.	<b>Please refer to Bid Amendment No. 1</b>
2.	There are different packaging types for the granular activated carbon (depending on manufacturer) ...since the bid is IDIQ there shouldn't be a required packaging type.	<b>GWA will accept the lbs. per sack delivery as manufacturer packaging varies. GWA will pay per sack and not the lbs.</b>

		For example: If packaging is 1,000 lbs/supersack and vendor delivers 68 bags then that would work since the required quantity was fulfilled.	
	3.	As long as the required quantity (which in this case is \$68,000 lbs) is delivered then I believe that should be fine.  Please provide clarification on this.	<b>As long as the vendor delivers the minimum required lbs. but not less than, GWA will accommodate the lbs. per sack purchase or deliveries.</b>

Bidders are also notified to visit GWA website: [www.guamwaterworks.org](http://www.guamwaterworks.org) to ensure that addenda to the bid, answers to questions, and reminders are communicated to all bidders throughout the solicitation process.
