Termination of the Boil Water Notice for GWA Northern Water System's Well A-31

Guam Waterworks Authority, with the concurrence of Guam Environmental Protection Agency (GEPA), is terminating the **Boil Water Notice** issued yesterday to the customers in the area of **Maina, Agana Heights and Sinajana** as of 11:00 a.m., April 27, 2024. Following the repair to the system, restoration to normal water pressures and laboratory testing at designated sampling locations, customers in this portion of the water system may now resume normal use of the water being supplied. GWA 's laboratory testing of the restored portion of the water system confirms the water is safe to drink.

GWA is letting customers in the affected area know that tests confirm no bacteria in the system, and you no longer need to boil your water. For more information, please contact Paul Kemp, Assistant General Manager for Compliance and Safety at 671-300-6885 or email at paulkemp@guamwaterworks.org or contact GWA's Dispatch at 671- 646-4211.
