**IFB No. 2024-16**  
**Wastewater Treatment Chemicals for Hagåtña WWTP**  
**Response to Inquiries No. 4**

This addendum serves to revise the previously issued bid documents and/or provides additional information for informational purposes. In cases where the responses below result in modifications to the bid documents, please consider them as amendments to the original IFB 2024-16. The following responses address RFIs received from potential bidders on August 8, 2024.

	QUESTION/INQUIRY AS SUBMITTED:	GWA RESPONSE:
<b>Question from August 8, 2024</b>		
1.	I just received another question from another very reputable source. They are asking if GWA is open to consider their granular flocculant because they are somehow aware that your dosages are about 50% less than the current emulsions. The cost savings cannot be ignored, they think.  Please advise if this acceptable ASAP so we may start getting the material in soon for jar testing.	GWA has <i>NO</i> restrictions on jar testing. Jar testing may be scheduled any time, at the convenience of Wastewater Treatment Staff via application and coordination through the GWA Procurement Office.

Bidders are also notified to visit the GWA website: [www.guamwaterworks.org](http://www.guamwaterworks.org) to ensure that any addenda to the bid, answers to questions, and reminders are communicated to all bidders during the solicitation process.
