OPC Negotiation: RFP No. CIP-202400002
Design of Santa Rita Springs Rehabilitation
GWA Project No. 12305

Addendum No.: 03 - [Amending and Setting a New Time for RFP Proposal Submission](#)

Date: September 26, 2024

All Potential Proposers:

This addendum is issued to modify the previously issued proposal documents and/or given for informational purposes, and is hereby made a part of the proposal documents. Failure to acknowledge receipt of this addendum shall be grounds for the proposer's disqualification and rejection of the proposal.

1. Proposal Documents – Schedule, Close Date

On September 16, 2024, challenges with supplier register updates and the monitoring of system-generated communication were discovered with GWA's Online Procurement Cloud Portal. These challenges affected 1) timely bid submissions and 2) a response to a timely submitted RFI which remained unanswered prior to the RFP's submission deadline. All challenges occurred as a direct result of GWA's actions in directly servicing the procurement activity and its portal.

As a result, and to ensure all interested suppliers are equally given the opportunity to submit timely bids and receive responses to submitted RFI's, this note shall amend the RFP No. CIP-202400002 submission and close date; the new time and date for proposal submission and closing shall be 3:00 PM Chamorro Standard Time (ChST) on October 7, 2024.

This Addendum shall be sent and will apply to all registered suppliers and all **interested** suppliers shall be required to submit OR re-submit their bids using GWA's portal on or before the October 7, 2024 deadline. All hard-copy and/or electronic proposal submissions received on the previous closing date of September 16, 2024, shall remain unopened and will not be reviewed nor considered. For any questions regarding this amendment, proposal submissions using GWA's online portal, OR other concerns please email engbids@guamwaterworks.org.

Any additional instruction, responses, or new information for this RFP, shall be provided by subsequent Amendments and/or RFI responses and shall be sent to all registered proposers via email or through GWA's online portal.

Proposers are also notified to visit the GWA website, <http://guamwaterworks.org/bids/> and check the Oracle Procurement Cloud Supplier Portal to ensure that addenda to the bid, answers to questions, and reminders are communicated to all proposers throughout the solicitation process.
