**Design of Deep Well VFD and Electrical Upgrades  
 RFP-03-ENG-2026  
 GWA Project No. 32502  
 Response to RFI No. 1 to Contractor Inquiries**

This Addendum and/or Response to Request for Information (RFI) is issued to modify the previously issued Request for Proposal (RFP) documents and/or given for informational purposes and to the extent the responses below modify the proposal documents, please treat them as an amendment to the RFP. The following are responses to RFI's received:

NO.	DATE	QUESTION/INQUIRY AS SUBMITTED	GWA RESPONSE
1.	05/14/2026	Please provide information on the existing SCADA system, including the platform, version, and any applicable standards or preferences (for example, system vendor, software version, and interface requirements).	This information is not relevant during this phase of procurement. This will be discussed during the scope and fee negotiation between the GWA and the best qualifying firm.
2.		What is the current communications architecture between the well sites and central systems, including communication media, network topology, and any known constraints or planned upgrades?	This information is not relevant during this phase of procurement. This will be discussed during the scope and fee negotiation between the GWA and the best qualifying firm.
3.		What is the current level of automation at each well site, including control functionality, remote monitoring capabilities, and operator interaction requirements?	Current configuration is not relevant; the scope of this project is to design what is to be.
4.		To what extent are the well sites standardized? Please identify whether the sites are generally consistent or if variations exist in equipment, controls, electrical configuration, or site constraints.	There are 3 general varieties of floor plans. Variations do exist.
5.		Does GWA maintain a preferred or approved source list for equipment such as VFDs, PLCs, instrumentation, and related components?	Yes.
6.		We understand there are 120 well sites, is there a preferred order or, phased approach to perform the design and subsequent work?	There will be phasing requirements dictated by system and operational needs.

Offerors are also notified to visit the GWA website, <http://guamwaterworks.org/bids/> to ensure that addenda to the RFP, answers to questions, and reminders are communicated to all offerors throughout the solicitation process.

5/19/2026

Miguel C. Bordallo, P.E., General Manager
